**SUBJECT: Submission of Data to Address EPA's Product Chemistry Data Deficiency (OPP Decision # D-476891) for the Registration Application for Clomazone Technical 99.2% (EPA Reg. No. 279-GUAN); PRIA Category R333**

Dear Mr. Davis

FMC has previously submitted a registration application for a new product for Clomazone Technical 99.2% (EPA Reg. No. 279-GUAN). We have since received a deficiency letter (OPP Decision # D-476891) stating that the product chemistry report that was cited (MRID 48218305) has the title of "Willowood Propanil Technical Product Chemistry Data Waivers" and therefore cannot be used to satisfy group B product chemistry data requirements for this clomazone technical product.

To address this deficiency, FMC has corrected the erroneous title page to reflect the active ingredient clomazone. Included in this package are the following:

- EPA Application Form 8570-1
- Data Matrix (internal and public)
- Copy of EPA 75-day deficiency letter, dated 12/12/13
- Email correspondence, dated 11/22/11
- Transmittal Document
- 3 copies of product data (hard copies)

If you have any questions or comments, please contact me at (215) 299-5955 or by email at [Shannon.Yanocha@FMC.com](mailto:Shannon.Yanocha@FMC.com).

Sincerely,

Shannon Yanocha  
Product Registration Manager

## TRANSMITTAL DOCUMENT

**Name and Address of Submitter:**

FMC Corporation (EPA Company No. 279)  
1735 Market St.  
Philadelphia, PA 19103

**Regulatory Action**

Clomazone Technical 99.2% (EPA File Symbol: 279-GUAN)

PRIA Action R333

Resubmission in response to 75-day deficiency letter dated 12/12/13 (OPP Decision No. D-476891)

**Transmittal Date:**

December 23, 2013
